## CAREER OBJECTIVE:

Passionate MERN Stack Developer aiming to build scalable and user-friendly web applications. Seeking to contribute to a forward-thinking team while expanding my skills in modern full-stack development.

## TECHNICAL SKILLS:

- **Frontend**- JavaScript, React Js, Redux, Tailwind CSS
- **Backend** - Node js, Express Js
- **Database** - MongoDB
- **Tools & Platforms** - VS Code, Cursor, Git & GitHub, Firebase, React-router, Framer-motion, Axios, Shadcn/ui

## PROJECTS:

(1) **B2B Wholesale Platform** - Front End & Back End Development . [\[Live\]](#) [\[Github\]](#)

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, Firebase Auth, JWT, Tailwind CSS, React Router, React Hot Toast

**Project Summary:** Built a fully responsive B2B wholesale web application where manufacturers and retailers can interact through secure and efficient product management and bulk ordering features.

- **Auth & Protected Routes:** Firebase login with JWT-secured private routes.
- **Product & Cart System:** Manage products across categories; bulk buying with quantity sync via MongoDB *\$inc*.
- **Filtering & Views:** Filter by stock and toggle between card/table view.
- **UX Enhancements:** Toast notifications, auto-filled modal checkout, and smooth animations.
- **Responsive UI:** Built with Tailwind CSS, AOS, and Framer Motion.
- **Deployment:** Secured deployment on Netlify & Render using environment variables.

(2) **Hobby Hub** - Front End & Back End Development. [\[Live\]](#) [\[Github\]](#)

**Tech Stack:** React.js (Vite), Node.js, Express.js, MongoDB, Firebase Auth, Tailwind CSS, React Router DOM, React Toastify, SweetAlert2, Swiper Js

**Project Summary:** Developed a fully responsive web app connecting users to hobby groups where they can create, join, and manage communities based on shared interests and events.

- **Authentication & Security:** Firebase Email and Google login with protected routes and persistent sessions.
- **Group Management:** Full CRUD functionality for hobby groups with conditional join button based on event start date.
- **Theme Toggle:** Seamless dark and light mode switch for enhanced UX.
- **Interactive UI:** Hero section with Swiper slider and smooth animations using React Awesome Reveal and Lottie.
- **Responsive Design:** Optimized for mobile, tablet, and desktop using Tailwind CSS.
- **UX Features:** Custom 404 page, loading spinners, and toast notifications for user feedback.
- **Deployment:** Frontend hosted on Firebase, backend deployed on Vercel with environment variables for security.

(3) **Laywar Booking System** - Front End & Back End Development. [\[Live\]](#)

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, React Router, React Hot Toast

**Project Summary:** A web application for booking appointments with lawyers. This project streamlines the process of finding, scheduling, and managing legal consultations.

- Browse a list of available lawyers by specialty.
- View lawyer profiles and ratings.
- Book appointments with real-time availability.
- User authentication and profile management.
- Admin dashboard for managing lawyers and bookings.
- Responsive design for desktop and mobile.

## EDUCATION:

**Bachelor of Science - B.sc** | GLOBAL INSTITUTE OF INFORMATION TECHNOLOGY, DHAKA, BANGLADESH, 2025
